The report of the treasurer of Ohio to he Governor with regard to the receipts and disbursement of the State treasury during the fiscal year ending November 15th, 1869, is completed. It shows total receipts during the year of \$5,351,735.24, of which \$1,722,085.87 are for general revenue \$2,653,724.54, for the sinking fund, \$1,493,705.03 for the common school fund, and the balance for the smaller account and the balance for the smaller accou of the State. The disbursements amount to \$4,913,675.10, leaving a balance in the treasury of \$438,060.14 to the credit of the various funds of the State. A case was recently tried in the Craw-

price as any other manufacturers in the State and we fully believe that all dealers and one sumers will hartily sustain our efforts by itberally patronising those who make quality the criterian, not a combination to extort a price. All our flour and feed warranted as refusing to pay advanced rate of fare a against the Pittsburgh, Fort Wayne and Chicago R.
